\* Elective Surgery / Emergency Surgery (please note how many of each)

Number of dogs with condition		Age(s) at time of surgery	
Any related information			

## Cataracts (developed in old age)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Cataracts (developed at an early age)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Cherry Eye

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Cleft Palate

Number of dogs with condition			
Any related information, including the sex of the affected dog(s)			

**Congenital Heart Problems** (present at birth or in a very young puppy)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

**Corneal Ulcers** (please count each ulcer as a separate event)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

**Cryptorchidism/Monorchidism** (one or both testicles undescended)

Number of dogs with condition			
Any related information			

**Cushing's Disease**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

**Epilepsy**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

**Heart Problems** (murmur only, no treatment)

Number of dogs with condition		Age(s) at diagnosis	
Any related information, including the sex of the affected dog(s)			

**Heart Problems** (diagnosed and treated before the age of 5)

Number of dogs with condition		Age(s) at diagnosis/start of treatment	
Any related information, including the sex of the affected dog(s)			

**Heart Problems** (diagnosed and treated between the ages of 5 and 8)

Number of dogs with condition		Age(s) at diagnosis/start of treatment	
Any related information, including the sex of the affected dog(s)			

**Heart Problems** (diagnosed and treated after the age of 8)

Number of dogs with condition		Age(s) at diagnosis/start of treatment	
Any related information, including the sex of the affected dog(s)			

**Heart Problems** (diagnosed before the age of 8, resulting in rapid deterioration and death)

Number of dogs with condition		Age(s) at diagnosis/start of treatment	
Any related information, including the sex of the affected dog(s)			

## Hip Problems

\* Hip dysplasia / Legg-Calve-Perthes Disease (please state which, as appropriate)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Lens Luxation

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Liver Shunts

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Lumps and Bumps (Benign)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s) and the location, size and type (and name if known) of lumps and bumps			

## Lumps and Bumps (Malignant)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s) and the location, size and type (and name if known) of lumps and bumps			

### **Luxating Patella(s)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### **Lymphosarcoma/Leukaemia (and other blood cancers)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### **Mange (Demodex)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### **Mange (Sarcoptes)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### **Pancreatitis (Acute)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### **Pancreatitis (Chronic)**

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### Poor Temperament (bit people)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### Retained Milk Teeth Requiring Extraction under Anaesthetic

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### Skin Problems (other than mange)

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

### Slipped Disc(s) and Degenerative Spinal Diseases

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s), whether treated with surgery, and which disc(s) affected			

### Sudden Death of Unknown Origin

Number of dogs with condition		Age(s) at onset/diagnosis	
Any related information, including the sex of the affected dog(s)			

## Any other details, conditions and information

If there is any other information you think may be of use to the Health Subcommittee of the Norfolk Terrier Club of Great Britain, please use the box below to tell us, giving as much detail as you can. Please include the number and sex of any affected dogs and the age(s) at onset/diagnosis/time of operation.

**In your opinion, which 5 conditions most affect the Norfolk Terrier as a breed? Please list in order of importance.**
